

A spreader is one of the most important tools of a rescuer. Strangely enough it is one of the most misunderstood tools. When purchasing a spreader many make decisions on maximum force and opening, where you need progressive power at the beginning of your spreading action. That is where a structure is toughest and the opening is at its smallest.

SPREADER XSERIES

THE HIGHEST PERFORMING SPREADER

1 Quick connectors: are able to connect fast and easy. Automatic locking and flat face design prevent sand going in. 2 Fixed 360° handle: enable the user to have balance in every position and change positions fast. 3 Duo control: handle for both thumb and/or twist control in one. 4 Effective angle: max. of 63 degree for effective power line, and progressive power at the beginning stage. 5 Exchangeable cutting and peeling jaws: depending on the task you are doing, from pulling to peeling.

RESQTEC

SPREADER X4

SPREADER X4 DIMENSIONS

Length	30 15/16 inches
Width	11 7/16 inches
Height	10 7/8 inches
Operational weight	46.1 lb
Nominal pressure	5000 Ult. PSI
Max.spreading opening	27 1/8 inches
Max.spreading force	114 US tot / 227,000 lbs

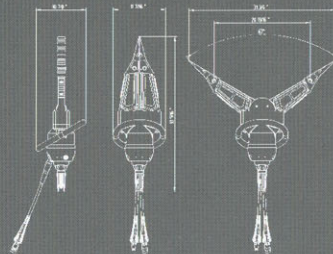

SPREADER X4S

SPREADER X4S DIMENSIONS

Length	33 11/16 inches
Width	11 7/16 inches
Height	10 7/8 inches
Operational weight	48.3 lb
Nominal pressure	5000 Ult. PSI
Max.spreading opening	31 3/4 inches
Max.spreading force	114 US tot / 227,000 lbs

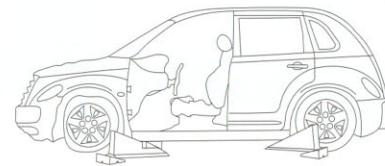

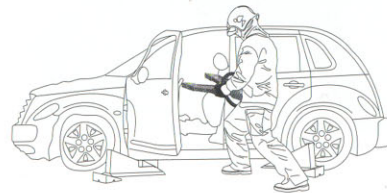

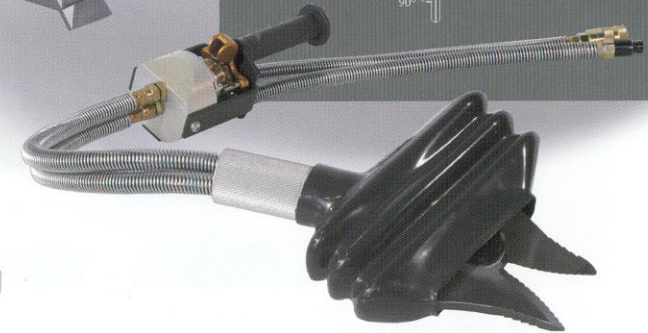

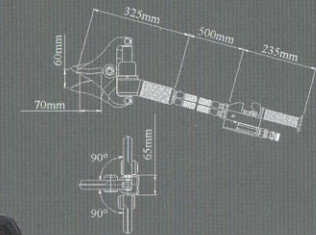

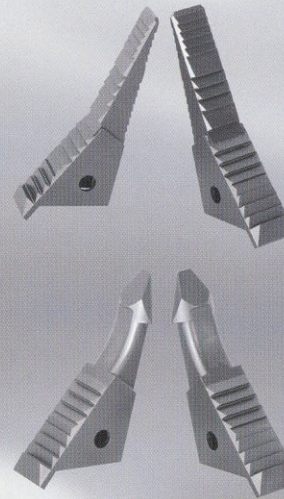

CUTTER Q1

Q1 DIMENSIONS

Length	12 13/16 inches
Width	8 9/16 inches
Height	2 9/16 inches
Operational weight	15 lb
Nominal pressure	5000 Ult. PSI
Max.cutting opening	2 3/8 inches
Max.cutting force	19 US tot / 37,000 lbs
Max.spreading opening	3 1/8 inches
Max.spreading force	5 US tot / 9,000 lbs
